Single Phase Service

Mobile Home Parks/Recreational Vehicle (RV) Parks Master Metered (Demand Meter) Service

AVAILABILITY

Service under this schedule is available to master-metered mobile home parks and recreational vehicle (RV) parks.

APPLICABILITY

Service under this schedule is applicable to electric service provided to a master-metered mobile home park or RV park for general domestic uses, including single phase motors of 10 horsepower rating or less. This schedule is not applicable to standby service or shared service. This rate is available to those members who purchase the installation of metering that is approved by the Cooperative. Metering becomes the property of the Cooperative upon the provision of service.

DELIVERY POINT

Secondary Voltage

If service is furnished at secondary voltage, the delivery point shall be the metering point unless otherwise specified in the contract for service. All wiring, pole lines and other equipment on the load-side of the delivery point shall be owned and maintained by the member.

Should load-side electric facilities be owned by the Cooperative, arrangements may be made with the Cooperative for transfer of ownership to the member.

Primary Voltage

If service is furnished at Cooperative's primary line voltage, the delivery point shall be the point of attachment of Cooperative's primary line to member's facilities specified in the contract for service. All wiring, pole lines and other electric equipment (except meter equipment) on the load-side of the delivery point shall be owned and maintained by the member.

TYPE OF SERVICE

The type of service provided under this schedule is single phase, at the standard voltage available for the premises to be served, supplied through one meter at one point of delivery.
